

# Creating an Account in Material ConneXion

Users may begin browsing the Materials ConneXion database immediately. However, creating a personal account will allow the user to save materials to “Material Boards” which will make it easy to return to saved materials for continued research and to share their findings with professors or peers. To create a **personal account**:

Click on “Log In” at the top right. This will open a pop-up window.

**If you are a returning user**, enter the username and password, then click “Submit”.

**If you are a new user**, follow the on-screen instructions (“To create a personal account, Click here”). This will bring you to a registration page. Fill out the information. You must use your AAU email address (art.edu, i.art.edu, or academyart.edu). The list of majors is generic; choose the one that most closely matches your major at AAU.
